The screenshot displays the Postman application interface. On the left, a sidebar shows a collection of requests under the name 'GenAI-Aug'. The main panel is titled 'S01-Text to Audio' and shows a POST request to the endpoint 'https://api.groq.com/openai/v1/audio/speech'. The request is successfully executed, returning a '200 OK' status. The response body is a large audio file, indicated by a play button and a duration of '0:08 / 0:08'. The right sidebar contains a 'Build faster with Agent Mode' section with various links and a 'Get your API working' section.

Build faster with Agent Mode

Use Agent Mode to transform the way you work with APIs.

Get your API working

Fix configurations, scripts, or anything else to get your request working.

Document

Describe what type of documentation you'd like, and watch Agent Mode do the rest.

Explore

Let Agent Mode configure requests and identify use-cases.

And much more!

Use Agent Mode across Flows, Monitors, Mocks, and more!
